

Cool School Challenge

Sample Introduction Memo

To garner support and buy-in from teachers and administrators, let them know you want to start the Challenge at your school and that you want as much participation from them as possible. Here is some sample language you could use in a memo or e-mail, or as talking points for a presentation to a faculty meeting, etc.

Dear [Teacher, principal, etc.]

We are concerned about global climate change and believe that through education and action, we can make a difference at our school. That's why as a class project we are initiating a program known as the Cool School Challenge. Through the Challenge, we aim to reduce carbon dioxide (CO₂) emissions for our entire school by encouraging every classroom to take a pledge to reduce 2000 or more pounds of CO₂ over the course of a school year. To help participating classrooms accomplish this goal, we will:

1. Conduct a quick pre-Challenge CO₂ emissions audit for each classroom;
2. Write a Cool School Action Plan for each classroom;
3. At the end of the Challenge period, conduct a post-Challenge survey; and
4. Finally, based on the post-Challenge survey, project how much CO₂ could be reduced by each classroom if these efforts are implemented over the course of a 180-day school year.

Please join us in this effort to reduce CO₂ emissions at our school and to support us in finding solutions to this important community issue. We look forward to your participation!

Sincerely,

[Teacher/Students]

COOL TIPS

- Personalize the language to make it most compelling to your teachers/administration, etc.
- Have all the students in your class sign the memo/email, to demonstrate how many are behind this effort.
- Be sure you indicate how teachers can demonstrate their support or sign up to be part of the Cool School Challenge. Should they email you? Or sign a sheet in the faculty lounge? Give them a method for following up.
